Geo-Intel Lab

AI/ML Hackathon - Ministry of Panchayati Raj (Geospatial Intelligence Challenge)

*Powered by: **Geo-Intel Lab, IITTNiF***

Problem Statement Addressed

Project Title

Name

Institution/Organization Name

Geo-Intel Lab, IITTNiF

Supported by

Geospatial Intelligence and Applications Laboratory,
IIT Tirupati Navavishkar I-Hub Foundation

1. Title of the Idea
Word Limit: Max 15 words
A crisp, descriptive title.

2. Team/Individual Name & Affiliation
Word Limit: Max 50 words
Names, institution/company/startup, contact details.

3. Problem Statement Addressed
Word Limit: 100–150 words
Clearly define the air quality issue being tackled.

4. Proposed Solution
Word Limit: 200–250 words
Describe the core idea and how it addresses the problem.

5. Uniqueness and Innovation
Word Limit: 150–200 words
What makes your idea novel or different from existing solutions?

6. Technology Stack / Methodology
Word Limit: 150–200 words
Outline tools, technologies, techniques, or scientific methods used.

7. Expected Impact (Environmental, Social, Economic, etc.)
Word Limit: 100–150 words
Describe potential measurable outcomes and benefits.

8. Implementation Plan / Roadmap
Word Limit: 150–200 words
Step-by-step execution approach over 3–12 months.

9. Required Resources
Word Limit: 100–150 words
Mention infrastructure, tools, or expertise needed.

Geo-Intel Lab, IITTNiF

10. Scalability and Sustainability
Word Limit: 100–150 words
Can this be expanded across regions or sectors? Is it sustainable long-term?

11. Stakeholders and Collaborations (if any)
Word Limit: 100–150 words
Mention government bodies, industry partners, communities, etc.

12. Current Stage of Development
Word Limit: Choose one and elaborate in 50–100 words
Idea / Concept | Prototype | MVP | Piloted | Deployed

13. Supporting Materials (Optional)
No word limit — allow uploads or links to diagrams, pitch decks, demo videos, GitHub, etc.
